

At Darton Academy, we are committed to fostering an inclusive and supportive environment by integrating LGBTQAI+ education throughout our curriculum.

In Year 8, students explore topics such as homophobia, the experiences of being part of the LGBTQAI+ community, and challenging harmful stereotypes, empowering them to understand and appreciate diversity.

In Year 9, through Relationships and Sex Education (RSE), students learn about various types of relationships, including bisexual, heterosexual, homosexual, asexual, and pansexual, while personal development lessons address issues like sex and gender identity, sexism, gender prejudice, and the impact of hate crimes.

In Year 10 Education continues to expand students' understanding by exploring the complexities of different types of relationships. These lessons are designed to promote respect, empathy, and a deeper awareness of the importance of equality and inclusion in all aspects of life.
